Technical Data Sheet

**CMC 6-ROW**

**FEATURES**

- While 6-Row Malt is largely a Legacy of 20th Century brewing, Canada Malting has worked hard to continue to source Premium Canadian 6-Row for Brewers who recognise the benefits of this Traditional malt and its higher enzymatic power.

**TYPICAL ANALYSIS**

<table>
<thead>
<tr>
<th>Colour °L</th>
<th>Protein Total Max.</th>
<th>Extract CG As Is Min.</th>
<th>Plumps (%) Min.</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.9 – 2.5</td>
<td>13.0</td>
<td>78.5</td>
<td>75</td>
</tr>
</tbody>
</table>

**FLAVOUR AND COLOUR**

- Due to its slightly higher protein and soluble protein, CMC 6-Row has a slightly higher colour and increased biscuit notes than the CMC 2-Row. Additionally, with the higher enzymes, it creates a fully converted wort, which drops to a low AE during fermentation, yielding a dry, but flavourful beer.

**RECIPE FORMULATION**

- Perfect for Pre-Prohibition style Lagers, the CMC 6-Row is perfect for any style of beer made with significant portions of unmalted grains, while its slightly elevated colour yields a golden tone.
- This Traditional Base malt yields a golden tone when used on its own, and can be used at up to 100% of the Grist.

**STORAGE AND SHELF LIFE**

- Store in cool, dry conditions
- Keep away from pests and odours
- Optimum shelf life within 1 year from date of manufacture

**PACKAGE SIZES**

- 25kg bag
- 1 MT tote
- Bulk volume in various sizes (20MT – 5000MT), in trailer, railcar, vessel, lined containers

---

Product: CMC 6-Row  
Issue Date: April 23rd, 2018  
Revision: 02
APPLICATIONS
➢ Ingredient for Brewing, Distilling and Food Manufacturing

CERTIFICATIONS AVAILABLE
➢ Produced at a HACCP certified facility
➢ Kosher

PRODUCT CHARACTERISTICS
➢ Product deliveries shall conform to the Canadian Food and Drug Act
➢ Produced from AMBA/BMBRI approved malting varieties
➢ Raw materials are tested for traces of pesticides, mycotoxins and heavy metals by a 3rd party laboratory
➢ All ingredients are manufactured, stored and transported in such a manner as to prevent chemical, physical, or biological contamination including pest infestation
➢ Product is ready to use
➢ Fit for human consumption
➢ Free of Genetically Modified materials
➢ Product of Canada

ALLERGENS
➢ Malt products contain gluten which can cause adverse reaction for people with gluten intolerance
➢ Malt may be produced with Sulphur Dioxide and thus may have residual Sulphites, actual value will be reported on Certificate of Analysis at customer request

WARNING
➢ Protect from heat source
➢ Excessive dust may cause skin irritation and breathing issues
➢ See SDS for Combustible dust hazard information

* Figures listed under Typical Analysis are subject to standard analytical deviations. They represent average values, and are not to be considered as guarantees. A Certificate of Analysis based on a specific lot will be supplied at time of shipment.
